Camp Overview

Our coaching staff invites you to spend a week in our community oriented soccer camp. Our concerns for young, growing and eager soccer players and our teaching methods are founded in over 30 years of coaching and teaching experience. In our well organized camps, we ensure players will learn soccer techniques and tactics in a safe and healthy environment. Their learning progress makes our camps the premier school related soccer academy. Our Bosque School facilities are easy to get to, safe and offer the total environment for a healthy and enjoyable week.

The camp is designed to accommodate all level of players. The advanced group will mainly consist of varsity players from various schools. They will concentrate on all essential phases for the upcoming season. They will also have an evening play session. This group will include talented younger players who wish to try out for a varsity team or simply prepare for a higher performance level. The intermediate group will concentrate on soccer techniques and small game tactics. It is a preparatory camp for the advanced level. Small games to incorporate the skill and tactical components will be a major part of this group. The technique camp for the entry level group will focus mainly on skill development and fun games.
